

## SWISSLINE AT BÜRGENSTOCK HOTELS & RESORT

Offering noteworthy Swiss hotel hospitality and the most modern of medical concepts complemented by amazing architecture, it is no wonder that Bürgenstock Resort's "forest hotel", Waldhotel Health & Medical Excellence, is among the few hand-picked venues to host Swissline's haute couture medi-spas.

The renowned anti-ageing skincare brand found the perfect partner in Waldhotel; the revolutionary spa-cum-medical centre's holistic "Healthy by Nature" concept and state-of-the-art medical facilities resonated with its "GLAMSCIENCE" brand positioning. The fact that it is completed with a 45,208-sqf medical facility and a 13,993-sqf spa with dramatic cliff-edge position overlooking lush meadows and green forests makes it the ideal background for magical encounters.

Submerge yourself in an upscale dimension of physical and mental well-being as you step into its spatially striking spa, featuring a sparkling indoor pool and an outdoor one with sweeping views of the Alps. On top of that, there are hot and cold Kneipp baths, a Finnish sauna, relaxing water beds and secluded massage cabins. Its multidisciplinary medical team along with Swissline-exclusive facials using professional products from three of the brand's skincare ranges: Cell Shock, Cell Shock White and Force Vitale, are just the cherry on top.
